IMPRESSIONS ABOUT THE BOOK

*Write down impressions about the book *To Kill a Mockingbird*...*

- We think that the part of society shown in this book is horrible because of stereotypes and racism: the jury decided to declare Tom Robinson guilty only because he was black, even tho it was clear that he was innocent.

SIMILARITIES AND DIFFERENCES ...

Compare Slovenia with your country (similarities and differences).

SIMILARITIES:

- **Some words:** *ciao* = *ciao* ; *adijo* = *addio* ; *marmelada* = *marmellata* ; *tulipan* = *tulipano* ; *koncert* = *concerto* ; *Italija* = *Italia*...
- **Sea:** we have the same sea (Adriatic sea)

DIFFERENCES:

- **Pizza with cheese:** in Italy pizza is with mozzarella
- **School:** in Italy we don't use slippers; every class stays in the same classroom for all the lessons; we have a different school system; in middle school (our grade) we don't eat at school
- **Keyboard:** the letters' position in the keyboard is different compared to italian and english keyboard

WORKSHOPS...

Introduce a workshop that you liked the most and how was it connected to the book

We really liked workshops in particular:

- **Rap music workshop:** we loved that because we had an opportunity to talk and reflect about critical social situations in different countries. It was connected with the book with the themes of every rap song (life in the street, poverty, mafia...)
